VICARIS ALPHA · FOR SMALL BUSINESS OWNERS

The unexpected happens. Prepare for what comes next.

Your absence, an IT failure, premises you cannot use... With VICARIS Alpha, you decide who takes over, where to find access details, and what to do first. So that your business can keep running and the decisions stay yours.

> These questions are best answered before an incident, not during an emergency. With VICARIS Alpha, plan your initial response.

Six situations to prepare for

Business owner suddenly unavailable
Who takes over, the limits of their role, and what official approval is needed.

Extended absence of a key employee
The tasks to take over, the information needed, and the access details to find.

Cyberattack and ransomware
The planned first steps and the people to call.

Damage to the premises
Contacts and instructions you can access outside the building, and an alternative work site.

Failure of a key supplier or service provider
Access details held only by that supplier or service provider, and an alternative solution.

Banking or administrative restrictions
The people to contact and the deadlines that need attention first.

Three documents. Four video guides. One method.

01
The Getting Started Guide
It shows you what to do, and in what order.

02
The Risk Audit
50 YES/NO checks to find your weaknesses and show your top three priorities.

03
Plan Alpha
The people who take over, key contacts, and six protocols.

VIDEO
The four video guides
Get started, complete the Audit, fill in the Plan, then finish and store your documents.

You complete the Audit and the Plan with your own business information, at your own pace.
